PREFACE

The Christmas and New Year wishes in my previous introduction haven't really contributed, my stomach turns around when hearing the news of the last weeks. Bomb attack in Madrid, 202 dead people, and then even worse, Israel which eliminates their political opponents with aimed attacks and a president Bush who doesn't even condemn it! If we are going to call all our opponents terrorists, then we have reason enough to kill everyone, including one or another chief of an undiscovered Indian tribe in the Amazon! Good for the world economy is different, and there should the leaders of the world better reflect upon one time. Unnecessary violence can not be accepted in no way, nowhere... It gives us mostly a bad image

with other cultures... Cultures which we need mostly for certain elementary matters (f.i. oil). The question is now for how long these deliveries can stay steady, in other words how long can our life remain affordable? In the niche of the hobby of automobiles such as classical vehicles it is important question not unjustly asked... Hopefully there will come soon a new strong person who can bring peace in the Middle East. As we wrote several times before, that area is the centre of many troubles on our entire planet...

The result (in my opinion) of the unstable world peace and the belligerent American government, who prefers shooting to talking, is the low Dollar and a strong Euro (Europe takes a much more moderate attitude). The result is

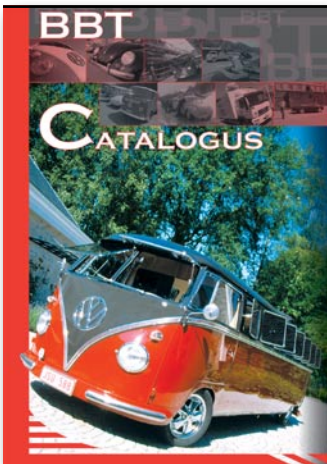

that we have already been able to carry out in some price lists price modifications mostly in negative, which is also the case in this price list. This makes that we try to stimulate the sale. On the other side the quantity list increases each quarter strongly, which we try to set up further steadily. So far my

short introduction, I hope that I can bring next summer edition some really positive news...

Bob

DOWNLOAD CATALOGUE

The entire BBT-catalogue can now be downloaded from our website. The catalogue has been drawn up in a pdf-format and it can be opened with Adobe Acrobat Reader 5.0 or higher, a program that you can download free of charge on www.adobe.com. Don't hesitate to visit BBT4VW.com!

WEBCAM CAMSHAFTS

As from now with these camshafts the WEBCAM stockstyles # 1637 have to be used too. In all other cases the guarantee will expire. The reason for this according to the manufacturer is that with Billet camshafts Billet stockstyles have to be used, ordinary stockstyles are made from another material and then a real abnormal abrasion is not unthinkable. We came to this result after consultation with the manufacturer as a result of several complaints and demands of the guarantee. Here again we observe the importance of the feedback with our customers on our products! These stockstyles will be taken in our stock program in the course of April.

NEW PRODUCTS

0030-1 Bumperbrack seal 68 <> 74 front and rear - original

These seals are better than those from Brazil and they are original. The price is therefore logically more expensive and they are used on beetles from 1968 till 1974. Sold by piece.
Stock already available.

0276 Stopplate for brake pedal

This plate is often thrown away when replacing the sole plates. We have taken them into stock due to the increasing demand of our customers in the shop. It is assembled on the sole and it stops the brake pedal. Sold by piece.
Stock already available.

0276-1 Spring brake pedal 66 >

This spring makes that your brake pedal comes completely back and doesn't falter. Due to the age and the heavy use of this spring it may happen that she loses her power. Now we can deliver this spring separately.
Sold per piece.
Stock already available.

0491-5 Gascap Type 2 / 1973-1979 - OEM

These gascaps are used on buses from 1973 till 1979. They are like original and they fit perfectly. They are sold with 2 keys. Sold by piece.
Stock already available.

0560

0560 Sun visors Type 2 white 1952 <> 1967 (pair)

0560-10 Sun visors Type 2 white 1968 <> 1979 (pair)

Due to the increasing demand for Type 2 parts we have now also taken the sun visors in stock, which is though an important part when you renew your interior. At this moment we have only the white (cream) ones, thereafter we'll consider if we'll take also other colours in stock. Sold per pair for 1 bus.
Stock already available.

0560-10

0564-21 Centre holder rear seat Type 2

This support is principally the same as 0564-20, but in this one there is a little hole with a thread to fix the holder. So it is used in the middle. Sold by piece.
Stock already available.

0564-25 Plug for rear seat bar T2

This plug is necessary for the bar on the rear seat of Type 2 (which stops the luggage). The bar and the plug are from aluminium so that you can polish them both. Sold by piece.
Stock already available.

0564-25 Plug for rear seat bar T2

This plug is necessary for the bar on the rear seat of Type 2 (which stops the luggage). The bar and the plug are from aluminium so that you can polish them both. Sold by piece.
Stock already available.

0624-5 Taillight T1 complete 74 > "ULTIMA EDITION"

These taillights are on the very latest beetle of the VW Mexico "ULTIMA EDITION". The base in chrome is very special on these lights. The glass of this light has an E-approval and is therefore suitable for the daily traffic. Sold by piece.
Stock already available.

0738-1 Boot tube clutch cable

This seal is assembled on the boot tube of the clutch cable at the side where the boot tube comes into the support of the gear box. The seal is very important because it prevents water and dirt to get in this boot tube, so it becomes always more difficult to declutch and finally it will be impossible. Sold by piece.
Stock already available.

0879-1 Front innerwheel left - VW Mexico

0880-1 Front innerwheel right - VW Mexico

We have taken now the original innerwheels in stock. They are made in the factory of VW Mexico. The fit of this innerwheels is perfect. Sold by piece.
Already some in stock.

0889-40 Seat rail KG 56-68 outer left

0889-41 Seat rail KG 56-68 our right

0889-42 Seat rail KG 69-74 outer left

0889-43 Seat rail KG 69-74 outer right

0889-45 Seat rail KG inner left

0889-46 Seat rail KG inner right

The seat rails are the metal parts which are assemble on the floors (#0889-25 + # 0889-26). As from now you don't need to move and/or restore these old rails. Each rail consists of 3 parts. For 1 car we'll 4 sets. Sold per set for 1 side of a seat.
Stock already available.

www.BBT4V.com

1005 Exhaust 'Volkswagen Motorsport' - VW Mexico

This is the only true sport exhaust from Volkswagen. It has 2 tail pipes on the original place, only these pipes are much thicker and they can only be used on 1300cc and 1600cc engines. Sold by piece. Stock already available.

1095-6 Heater hose between heat exchanger and chassis - VW Mexico

Due to the considerable demand after used heater hoses we have decided to take these new ones for a good price into stock. They come also from VW Mexico and they are original. You can push them a little bit and stretch them out in order to obtain the required length, so they fit on all young beetles. Sold by piece. Already in stock.

1231-1 Set brake shoes front 1302/1303 - ATE

These brake shoes are for the 1302/03 front of the brand ATE. This is for the customers who wish just a bit more quality. Sold per set of 4 brake shoes. Stock already available.

1249-56 Connection nipple for # 1249-5

These connection nipples are specially manufactured so you can use your original brake house directly of the HI-Performance brake caliper. Sold by piece. Stock already available.

1349 - Adjuster front end Type 2 / > 1967

1349-1 - Adjuster front end Type 2 / 1968>

This adjuster set must be welded on your front end, so that you get the same system as with a puma front end for beetles. This set contains 2 large coggings, 2 small coggings and 2 bolts and nuts. There exists a set for split buses and baywindow buses. By assembling this set you get out 15cm lower. Sold per set for 1 car. Stock already available.

1370-006 Seal chassis steer axle 1968-

This seal is for the same as 1370-004 but then for 1968- and later. So this is the seal which sits between the body and the steering axle which comes out there. They are used as from chassis number 118 000 001 and later. Sold by piece. Stock already available.

2045-1 Standard ignition wire set / BOSCH

We have enlarged our assortment mostly with quality products. This is a very interesting product. Our usual Brazilian ignition wire set is certainly not to be called bad, but for those people who want something more we have taken this ignition wire set from Bosch into stock. The quality is very good. Sold by piece. Stock already available.

2109-1 Manifold 1600cc single port / 31 pict

Due to the increasing demand for these manifolds and the diminishing offer of good used ones, we have decided to take these new ones into our assortment. They are used for 1600cc engines with single ports. We have assembled them already ourselves and we've tried them out and they seem to be of good quality. On this manifold only a 31pict carburettor can be placed, there exist other adaptors which can be placed on 34pict carburettors (available on request). Sold by piece. Stock already available.

2461 Washer bottle complete - VW Mexico

These washer bottles are used on all Mexico beetles and they can also be built in all other beetles provided that some adjustments are made for certain models. The great advantage is that these washer bottles have an electrical pump and they don't work on the pressure of the spare wheel. Sold by piece. Already some in stock.

- # 2617-1 Autometer 5" Silver - 10.000rpm with shift lite
- # 2617-2 Autometer 5" Lunar - 10.000rpm with shift lite
- # 2617-3 Autometer 5" Carbon - 10.000rpm with shift lite
- # 2617-4 Autometer 5" Cobalt - 10.000rpm with shift lite
- # 2617-5 Autometer 5" C2 - 10.000rpm with shift lite

These are the newest revolution counters from Autometer. For more technical information you'd better look into their catalogue, which is available on simple request and free of charge with us together with the complete price-list of all the products. Sold by piece.
Stock already available.

2617-2

2617-3

2617-4

2617-5

2642

- # 2642 Autometer mounting cup 67mm / Carbon
- # 2645 Autometer mounting cup 5" (125mm) / Carbon

These mounting cups are the same as our black and chrome (metal) ones, but then in Carbon (no carbon look). Sold by piece.
Stock already available.

2645

- # 2649-01 Autometer Shift lite lenskit blue
- # 2649-02 Autometer Shift lite lenskit yellow
- # 2649-03 Autometer Shift lite lenskit red

This lenskit consists of a lens and a cover to put over the Shift Lite of your Autometer. So you can regularly change the colour of your Shift Lite in a cheap way. Sold by piece.
Stock already available.

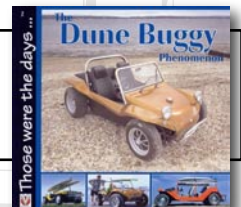

5503 Engine 1600cc VW Mexico (new)

As from now BBT delivers also brand-new engines, original and directly from the Volkswagen factories in Mexico. They are delivered with a new oil cooler and an oil pump with external oilfilter (like BBT # 1807). By no means VW Mexico gives any guarantee on these engines, therefore we neither can not give any guarantee! But what can go wrong with a new engine directly from the factory? Please mention eventual transportation damage before assembling the engine. The price is a bit higher than for our exchange engines, but then you've got to take into account that for new engines no exchange is required! Sold by piece.
Already some in stock.

9358 Dune Buggy 'The phenomenon'

The start and the use of the buggy in the years 60-70 are described in this book. There are several color pictures in. Sold by piece.
Stock already available.
